

Site Archiving Services

An Insurance Policy for Your Historical Content

Keeping a historic record of the content on your website is an enormous undertaking that requires extreme diligence, documented processes, and resources. But for many industries, having a record of what they had published on their website at any given time is not only a necessary fail-safe, but a regulatory mandate.

With Crownpeak Site Archiving, we handle the hassle for you by taking an automated snapshot of the content on your website every single day. So, in the event that you need to go back and prove what content you had published at a particular point in time, all you need to do is submit a request to Crownpeak and we will retrieve your dated, timestamped records.

Designed with highly regulated industries in mind such as insurance, healthcare, and financial services, Crownpeak Site Archiving gives you peace of mind that in the event of a legal claim, you'll be able to prove exactly what you were advertising or promoting on your website at any given time.

For companies that require a longer period of retrieval, Crownpeak Site Archiving allows you to choose from **3, 5, 7, or 10 years** of consistent, automatic backup.

Benefits:

- Evidence for litigation cases
- Your choice of 3, 5, 7, or 10 year backups
- Knowing what content your organization had at any given time in history
- Compliance with regulatory standards
